**Neza's Azthetics and History (April 28, 1402 – June 4, 1472)**

There is much to be said about the Aztec culture and the influence. The name Neza is short for the city in which the owners are from called Nezahualcóyotl. Which was named after a very important iconic Aztec that happened to live nearby in a town called Texcoco. The actual city of Nezahualcóyotl was built in the lake-bed of Texcoco giving the city even more reason to name it after the person that had such a history in the nearby city. Nezahualcóyotl was a man of many disciplines. He was a poet, an architect, a farmer, a warrior, a ruler, and a philosopher. He was famous for his politics, his leadership, his ambitions, and his overall persona.
